Officer-In-Charge
Office of the Schools Division Superintendent
Division of Iloilo

Greetings!!!

Covid-19 outbreak has created a serious threat among our City Health Dentists, who are at highest risk for transmission of Covid-19 virus.

For this reason, safety protocols and adherence for the DOH guidelines were imposed; wherein routine dental care among our Children has been suspended. However the dental services will be resumed until such time our Covid-19 pandemic will be lifted and zero transmission will be established.

In relation to this, I would like to respectfully inform your good office that our dentists will be giving toothpaste and toothbrush supplies effective November 26, 2020; together with the monitoring chart to be signed by the teacher in charge and parents. The teacher in charge will distribute the supplies to the parents during the giving out of children's modules then the monitoring chart will be collected by the dentist after a week; for proper consolidation and evaluation. Together let us make Iloilo a "Healthy Smile City".

May the above request merit due consideration.
Thank you so much!
